## Apprentices and trainees

June quarter

# 2012

### Highlights

There were 514 900 apprentices and trainees in-training as at 30 June 2012, an increase of 11.3% from the previous year.

In the 12 months to 30 June 2012, compared with the previous year:

- commencements increased by 14.7%, to 368 200
- completions increased by 8.1%, to 185 800
- cancellations and withdrawals increased by 2.8%, to 140 500.

For seasonally adjusted data, comparing the June quarter 2012 with the March quarter 2012:

- commencements in trades occupations increased by 5.8%
- commencements in non-trades occupations increased by 11.2%
- completions decreased slightly
- cancellations and withdrawals remained steady
- in-training numbers increased by 2.4%.

# Apprentice and trainee directions

## Introduction

This publication presents estimates of apprentice and trainee activity in Australia for the June quarter 2012. The figures in this publication are derived from the National Apprentice and Trainee Collection no.73 (September 2012 estimates).

The most recent figures in this publication are estimated (those for training activity from the December quarter 2010 to the June quarter 2012). Estimates take into account reporting lags that occur at the time of data collection. Consequently, the figures in this publication may differ from those published in earlier or later reports.

Estimated data are presented in this publication on a seasonally adjusted, quarterly and 12-month ending series basis. The 12-month ending series is particularly useful in showing longer-term data trends, but is less useful in identifying turning points.

The seasonally adjusted data involve the use of a mathematical model to smooth out fluctuations due to seasonal influences. Seasonally adjusted data are useful to illustrate trends from one quarter to the next, but cannot be further disaggregated.

Further details on the estimation methodology and seasonally adjusted data tables can be found at  
[<http://www.ncver.edu.au/publications/2582.html>](http://www.ncver.edu.au/publications/2582.html).

## Overall trends

### In-training

The number of apprentices and trainees in-training as at 30 June 2012 was 514 900, an increase of 11.3% from one year earlier.

### For the 12 months ending 30 June 2012

#### Commencements

The number of commencements in the 12 months ending 30 June 2012 was 368 200, an increase of 14.7% from one year earlier.

Of this:

- trades commencements increased by 3.2%
- non-trades commencements increased by 19.5%

State and territory commencements in the 12 months to 30 June 2012, compared with the previous year, showed:

- New South Wales (+9.7%) ■ Western Australia (+22.2%)
- Victoria (+15.9%) ■ Tasmania (+13.0%)
- Queensland (+16.7%) ■ Northern Territory (-2.4%)
- South Australia (+17.6%) ■ Australian Capital Territory (+20.2%)

### Completions

The number of completions in the 12 months ending 30 June 2012 was 185 800, an increase of 8.1% from one year earlier.

### Cancellations and withdrawals

The number of cancellations and withdrawals in the 12 months ending 30 June 2012 was 140 500, an increase of 2.8% from one year earlier.

## Seasonally adjusted data

### In-training

The number of apprentices and trainees in-training has increased over the last three quarters. The number in-training increased by 2.4% between 31 March 2012 and 30 June 2012, from 478 700 to 490 000.

### Commencements

The number of trades commencements has increased over the last three quarters. Between the March quarter 2012 and the June quarter 2012, trades commencements increased by 5.8%.

The number of non-trades commencements has increased over the last three quarters. Between the March quarter 2012 and the June quarter 2012, non-trades commencements increased by 11.2%.

### Completions

The number of completions decreased slightly between the March quarter 2012 and the June quarter 2012, from 46 700 to 46 600.

### Cancellations and withdrawals

The number of cancellations and withdrawals remained steady between the March quarter 2012 and the June quarter 2012.

# Terms

**AQF (Australian Qualifications Framework)** is the national policy for regulated qualifications in Australian education and training. It incorporates the qualifications from each education and training sector into a single comprehensive national qualifications framework. For more details on the AQF, go to <<http://www.aqf.edu.au>>.

**ANZSCO (Australian and New Zealand Standard Classification of Occupations)** is a classification of the occupations of individuals. The classification is based on the Australian Bureau of Statistics publication, *Australian and New Zealand Standard Classification of Occupations* (First Edition, Revision 1, ABS cat.no.1220.0).

**Cancellations and withdrawals** refers to apprentices and trainees whose contract of training has been terminated prior to a successful completion. Cancellation and withdrawal figures in Victoria and Tasmania also include contracts which have been transferred due to a change in employer.

**Commencements** refers to apprentices and trainees starting a program of training. The date of commencement is the date that an apprentice or trainee contract of training is registered or approved under the provisions of the relevant state/territory legislation.

**Completions** refers to apprenticeship or traineeship contracts of training where all of the prescribed requirements have been met.

**Contract status** indicates the status of apprentice and trainee contracts of training, including the commencement, completion, and cancellation/withdrawal of contracts, and apprentices and trainees 'in-training'.

**Existing workers** refers to those apprentices and trainees who were employed by their current employer for more than three months full-time (or 12 months part-time/casual) prior to commencing their training contract.

**Full-time apprentices or trainees** are those whose ordinary hours of employment, including the training component, are at least the usual hours of employment for a full-time employee in that occupation.

**Industry skills councils** are organisations representing particular industries. For more information on industry skills councils, go to <<http://www.isc.org.au>>. For more information on training packages developed by industry skills councils, go to <<http://www.training.gov.au>>.

**In-training** refers to apprentices and trainees who are actively training, at the end of each quarter, under the terms of their training contract, and who have not completed, cancelled or withdrawn from their training, nor had their training contract expire without meeting all of the prescribed requirements of their program.

**Non-trades** refers to those apprentices and trainees employed in occupations outside the trades. 'Non-trades' includes all occupations listed under ANZSCO First Edition, Revision 1, with the exception of major group 3 (Technicians and trades workers).

**Part-time apprentices or trainees** are defined as those whose ordinary hours of employment, including the training component, are less than full-time. Part-time provisions vary across Australia and across occupations, with 'part-time' defined by each state and territory.

**Seasonal adjustment** refers to a mathematical model used in time series data to smooth out fluctuations attributable to seasonal influences.

**Trades** refers to those apprentices and trainees employed in trades occupations under major group 3 (Technicians and trades workers) of ANZSCO First Edition, Revision 1.

**Training duration** indicates the amount of time that an apprentice or trainee takes to complete their contract of training from the time of commencement.

**Training packages** are a set of nationally endorsed standards, guidelines and qualifications for training and for recognising and assessing skills. For more details on training packages, go to <<http://www.training.gov.au>>.

**12-month ending series** refers to the total number of commencements, completions and cancellations/withdrawals within a 12-month period (i.e. summing the current quarter with the previous three quarters).

# Technical notes

## Data source

Information included in this publication is, unless stated otherwise, derived from the National Apprentice and Trainee Collection no.73, September 2012 estimates, which is compiled under the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS) for Apprentice and Trainee Collection Specifications, Release 6.0, March 2008.

## Estimation procedure

This publication contains figures on apprentice and trainee activity (such as commencements, completions and in-training) based on the date of effect rather than the date of processing. Due to lags in processing, the most recent figures in this publication are estimated (for training activity from December quarter 2010 to June quarter 2012). The estimation method involves weighting recently processed numbers, based on average reporting lags. Because estimates are revised for up to seven quarters, figures for the last two years may differ from those published in earlier or in subsequent reports. Further details on the methodology can be found at <<http://www.ncver.edu.au/publications/2267.html>>.

## Seasonal adjustments

Seasonally adjusted data in this publication are derived from table 2 for in-training, table 4 for commencements, table 6 for completions and table 8 for cancellations and withdrawals. These data are adjusted using X-11-ARIMA methodology and then are 7-point Henderson-smoothed. The seasonally adjusted data used in figures 1–3 are available at <<http://www.ncver.edu.au/publications/2582.html>>.

## Notes on figures and tables

Due to lags in processing numbers, recent quarter activity is estimated. Proportions (percentages) may be subject to error as they are based on a sample, not the total population. Figures in bold are actual numbers.

See <http://www.ncver.edu.au/publications/2582.html> for the standard errors on these estimates.

- 1 The data have been seasonally adjusted and smoothed. For further information, please refer to the technical notes on page 19.
- 2 Changes occurred to Commonwealth incentive payments for existing workers, chiefly the removal of the commencement incentive payment for those apprenticeships and traineeships not on the National Skills Needs List (NSNL). Under the changes, training needed to have commenced prior to 1 July 2012 to attract the old subsidy rate. Further details on incentive changes can be found in the 2012–2013 federal budget [http://www.budget.gov.au/2012-13/content/bp2/html/bp2\\_expense-15.htm](http://www.budget.gov.au/2012-13/content/bp2/html/bp2_expense-15.htm).
- 3 In April 2012, the Victorian Department of Education and Early Childhood Development announced through *Refocusing Vocational Training in Victoria* that it would refocus subsidy rates for VET courses to better target areas of greatest public benefit and future jobs growth. New fee and funding rates were effective from 1 July 2012 for all new course commencements. It is likely that changes in subsidy rates for some courses may have influenced employer decisions on whether to commence trainees in the first or second half of the year.
- 4 The cancellation and withdrawal figures are inclusive of the contract status 'transferred' for Victoria and Tasmania, as contract transfers due to a change in employer were historically reported as cancellations or withdrawals.
- 5 Non-trades are defined as all major occupations groups 1–2 and 4–8 (ANZSCO First Edition, Revision 1). Trades are defined as all major group 3 (Technicians and trades workers) (ANZSCO First Edition, Revision 1).
- 6 The data presented in figure 3 use ANZSCO. ANZSCO has now been back-cast by NCVER to 1994 for reporting purposes. For further information on the methodology, see <http://www.ncver.edu.au/publications/2266.html>.
- 7 Unknown data have not been reported, whereas the total includes all contracts, including those with unknown status. Hence, some figures may not sum to the total.
